

BNP Paribas Equities & Derivatives – A global player on Visual Trader

With some of the largest trading positions and leading market shares worldwide, BNP Paribas ranks among the Top 5 players in Equities & Derivatives, addressing all investors’ needs through a complete range of solutions. In recognition for its excellence in origination, execution and service, BNP Paribas was named “Equity Derivatives House of the Year” (Risk 2004) and “Best Equity Derivatives Provider in Europe” (Global Finance 2004).

Some of the main features of our unique offer are described below:

-  **One single connection to the world** – Whether trading on global equities or listed derivatives, BNP Paribas Global Execution Services provide clients with seamless access to the world’s electronic exchanges. Through one single connection to BNP Paribas’ global platform, clients have access to over 50 exchanges worldwide, enabling them to enhance their own execution capabilities and reduce costs.
-  **Outstanding execution services** – BNP Paribas Global Execution Services enable clients to choose between Direct Market Access or Execution Desk Access, thus offering either high-speed secure execution with significant volume capacity or the support of experienced agency traders able to efficiently manage even the most complex orders. BNP Paribas’ dedicated teams ensure high liquidity, real-time monitoring and assistance for DMA as well as flexible reporting.

Integrated Execution & Securities Services: IESS, a unique combined offer – BNP Paribas is the only international bank providing a reliable STP solution globally, through a comprehensive combined offering of execution and securities services. With IESS, clients not only benefit from optimised access to financial markets but are also guaranteed efficient post-trade management and top quality custody.
