

ING Equity Markets (EM) is now an electronic execution broker on the Visual Trader network. ING EM's platform operates via three main entities, processing either **verbal or electronic orders**:

- **Western European equities** – Full-sales product with circa 70 analysts and 20 sales-traders based in 7 Western European countries. A centralised dealing desk provides visibility to flow with small and mid-cap execution being organised on a local basis. ING EM are ranked #2 in Belgium and are the first broker with a small/mid-cap label for all three Euronext segments.
- **LEMEA equities** – Sector led research; 27 LEMEA analysts are based in 10 locations, augmented with local expertise and centralised dealing. Top 3 broker in Poland, top 5 in Hungary and Czech Republic. Top 4 market maker in Emerging Europe ADRs and GDRs.
- **International Execution and Connectivity** – Execution in a wide range of International equity, DR and ETF securities, primarily via in-house execution desks, but also via third-parties as required. Furthermore, agency programme orders can be efficiently processed via Excel, FIX or FAX.

The full range of markets is listed below. All are offered execution-only as a minimum with the Western European and LEMEA markets also available via a full-sales service.
